

**SENSAGE HONORED WITH 2009 INFO SECURITY PRODUCTS GUIDE
GLOBAL EXCELLENCE AWARD**

*SenSage 4.0 Gains the Highest Trust of Customers Worldwide
in the Security Solution for Large Enterprises Category*

SAN FRANCISCO, April 21, 2009 – Enterprise software leader SenSage, Inc. announced today that Info Security Products Guide, the industry’s leading publication on security-related products and technologies, has named SenSage 4.0 the winner of the Security Solution for Large Enterprises Customer Trust Award in its 2009 Global Product Excellence competition.

“In an interconnected world, threats have no boundaries and security has to remain a prime requirement,” says Rake Narang, editor-in-chief of Info Security Products Guide. “We are pleased to honor SenSage as a winner for 2009.”

SenSage event data warehouse offerings allow customers to address emerging security threats, compliance mandates, and a host of risk management initiatives at a fraction of the cost of traditional data warehouse and log management offerings. With SenSage, customers can easily capture, retain and query years of data from multiple sources at any detail level to support their business requirements. Suspicious or risky network activity, from outside or inside sources, is visible, customer information is safeguarded, and out-of-the-box reports pass the scrutiny of internal auditors.

“This recognition from Info Security Products Guide further validates SenSage as the industry leader in helping customers reduce security, compliance and operational risks at a fraction of the cost of traditional approaches,” said Bruno Kurtic, vice president of product management of SenSage. “More than 400 leading companies around the world use our patented event data warehouse solutions, and we are committed to maintaining their trust through continued innovation and responsiveness to changing business conditions.”

About SenSage

SenSage, Inc. offers patented event data warehouse solutions that provide actionable results from massive amounts of log and event data. More than 400 customers have deployed SenSage solutions to reduce security, fraud and compliance risks at a fraction of the cost of traditional data warehouses and log management solutions. Based in San Francisco, the company markets its solutions directly and through partners, including Cerner, EMC, HP, Hitachi Data Systems, McAfee, Tokyo Electron Device and many others.
