

SENSAGE APPOINTS CHARLIE RYAN AS CHIEF FINANCIAL OFFICER

SAN FRANCISCO, February 18, 2010 – SenSage, Inc. today announced the appointment of Charlie Ryan as chief financial officer. Charlie brings more than 22 years of strategic financial expertise to SenSage. He joins the company from HP, where he served as vice president of strategy and corporate development for HP's Services Business and recently managed the \$14 billion acquisition of Electronic Data Systems.

"Charlie's qualifications make him a perfect fit to manage our financial operations and support our continued strong revenue growth," said Jim Pflaging, president and chief executive officer of SenSage. "He has strong relationships with one of our most strategic partners, HP, and he brings tremendous knowledge to our executive team through his range of experience that spans everything from startups, to FORTUNE 500 corporations, to investment banking."

Prior to HP, Charlie led corporate development for VeriSign, where he completed numerous acquisitions in the security and content management space, including the \$130 million acquisition of GeoTrust. Before that, Charlie held the title of chief financial officer for IFILM, a digital media company that was subsequently sold to Viacom. While at IFILM, Charlie helped raised over \$45 million of private equity and completed six acquisitions that contributed a majority of the company's revenue.

Charlie also spent more than 10 years as an investment banker with Goldman Sachs, Morgan Stanley and Credit Suisse, where he executed over \$300 billion of M&A transactions, equity and debt offerings and strategic advisory services. Charlie holds an M.B.A. from the Anderson School at UCLA and a B.S. in Commerce from the McIntire School of Commerce at the University of Virginia.

About SenSage

SenSage®, Inc. delivers Security Intelligence solutions that provide essential decision support to cyber-security, risk management and compliance operations. These solutions enable the necessary convergence of security information and event management (SIEM), log management and continuous controls monitoring through a single console and data management architecture. Over 450 organizations and government agencies around the world rely upon SenSage to combine these functions in support of more holistic IT oversight, real-time alerting and investigation, incident response and compliance reporting. Combining a patented event data warehouse platform and interactive analytics environment, SenSage Security Intelligence solutions are more scalable, flexible and affordable than traditional SIEM, log management and data warehouse point products. SenSage goes to market with industry-leading OEMs and strategic alliance partners including Cerner, Cisco, EMC, HP, McAfee and SAP. Visit www.SenSage.com for more information.
